# ROHAN RAJPUT

**Programmer Analyst | Software Developer**

Orléans, Ottawa ON K4A 3C7 | 581-306-1429 | rohanrajput050902@gmail.com

LinkedIn: Rohan's LinkedIn

## PROFESSIONAL SUMMARY

Programmer Analyst and software developer with nearly three years of professional experience delivering applications across the full development lifecycle — analysis, development, testing, and deployment. Strong across multiple language stacks (C#, C++, Java/Spring) and modern web technologies, with hands-on experience in database development, containerization, and version control. Recently focused on analyzing and integrating AI to transform manual, human-driven workflows into automated systems. Bilingual (English and French), highly motivated, and committed to writing clean, maintainable, and efficient code.

## TECHNICAL SKILLS

**Programming Languages:** C#, C++, Java, Python, VB.NET, PHP, JavaScript, Kotlin, SQL

**Frameworks & Web:** Java Spring, GWT, ASP.NET (MVC), .NET 6, HTML5, CSS, AJAX, Angular, React, Ionic

**Databases:** Oracle Database, SQL Server, MySQL, Microsoft Access

**Tools & DevOps:** Git, SourceTree, Docker, Eclipse, Visual Studio, Toad, Android Studio

**APIs & Integrations:** Google APIs, Zoom API, SendGrid; AI workflow automation; Excel automation (VBA)

**Practices:** Full SDLC, code refactoring & optimization, software testing, maintenance & support, CodeFirst approach

## PROFESSIONAL EXPERIENCE

**Programmer Analyst** *Oct 2023 – Jun 2026*

*Systèmes Médicaux Imagem Inc. — Chicoutimi, QC*

- Delivered software across the full development lifecycle — development, testing, and deployment — for applications built in C#, C++, and Java (Spring).
- Built new applications and features, and maintained and enhanced existing systems to improve functionality, performance, and reliability.
- Developed and maintained a GWT-based Java web application, contributing across both front-end and back-end functionality.
- Analyzed and scoped projects applying AI as a tool to convert manual, human-driven workflows into automated systems, improving operational efficiency.
- Performed ongoing code improvement and refactoring to strengthen maintainability and reduce technical debt.
- Worked with Oracle Database using Toad for data access, queries, and troubleshooting; managed source code with Git and SourceTree.
- Used Docker for containerized builds and deployment, developing across Eclipse and Visual Studio environments.

**Web Development Intern** *Jun 2023 – Aug 2023*

*Labourly — London, ON*

- Built a web application using C# ASP.NET 6 MVC and the CodeFirst approach, integrating Zoom and Google APIs.
- Contributed to the design and development of Zoom Recording Downloader, a third-party web application.
- Assisted with database management in MySQL and SQL Server.
- Researched and analyzed AI methods for potential integration into the product.

## EDUCATION

**Attestation of Collegial Studies (AEC), Computer Programmer Analyst** *2021 – 2023*
*Collège Multihexa — Chicoutimi, QC*

## SELECTED PROJECTS

- **Hotel Reservation & Management System —** PHP, MySQL, JavaScript, Swiper JS, HTML, CSS, AJAX. Email verification via SMTP (login/registration), availability checks, booking management, online payment, cancellation refunds, and invoice generation.
- **E-commerce Web App (Gym Products) —** PHP and MySQL shopping-cart system with product catalogue and checkout.
- **Tech Products Forum —** Discussion/messaging forum built with ASP.NET MVC.
- **Mobile Applications —** Cross-platform app with Ionic + React (cart system & tax calculator) and native Android apps in Kotlin / Android Studio.
- **Python Utilities —** Phone Locator, WhatsApp Bot, Tic-Tac-Toe, and Turtle graphics patterns.

## LANGUAGES

English — Fluent • French — Fluent (spoken and written)
